

Weekly Report - Week 04

General Information

- Group ID: 03
- Project Name: T2 Web Automation Testing
- Date Range: 01/06/2026 - 04/07/2026 (Include 3 break weeks)

Task Complete This Week

23127209 – Nguyen Anh Khoa

- Researched Web Automation Testing tools for the seminar topic.
- Investigated AI-assisted testing tools including GitHub Copilot, Cursor and AI-native testing platforms.
- Summarized tool characteristics, advantages and limitations for proposal preparation.
- Contributed to drafting the seminar tool survey proposal.
- Compared candidate tools based on cost, AI capability and applicability to EShop.

Evidence:

- Tool Survey Research:
<https://docs.google.com/document/d/1rGZuT9hIDxcyfi7LHhIVNdp8lNKkklgbpZMA1EX3uIl/edit?usp=sharing>

23127402 – Truong Hoang Lam

- Researched traditional Web Automation Testing tools including Playwright, Cypress and Selenium.
- Compared automation frameworks based on learning curve, ecosystem, browser support and suitability for EShop.
- Studied Playwright fundamentals, installation process and project structure.
- Practiced creating and executing basic Playwright test scripts.
- Contributed to collecting information for the seminar tool survey.

Evidence:

- Web Testing Tools Research:
<https://docs.google.com/document/d/1dw7fTrrodx8KgLklsly00wIJPQ9fkWjta3lmbUzpuzQ/edit?usp=sharing>

23127430 – Dinh Hoang Nam

- Studied seminar requirements, workflow and evaluation criteria for T02 – Web Automation Testing.
- Analyzed EShop SUT and identified candidate business flows for automation testing.
- Participated in selecting the proposed automation stack (Playwright + GitHub Copilot/Cursor).
- Drafted and refined the Tool Survey Proposal.
- Incorporated lecturer feedback by researching Web Automation Testing theory before tool evaluation.
- Researched concepts including test automation architecture, locator strategy, synchronization, assertions and maintainability.

- Updated the proposal with theory-driven tool evaluation criteria.

Evidence:

- [Docs](#)
- Make the conversation with TA in Slack

AI Usage Declaration

Perplexity AI

- Website: <https://www.perplexity.ai>
- Accessed: June 1, 2026
- Prompt:

"I am preparing a seminar on Web Automation Testing. Can you suggest traditional and AI-augmented testing tools?"

- Purpose:
 - Identify candidate tools for Web Automation Testing.
 - Collect initial information about traditional and AI-assisted testing solutions.
- Contribution:
 - AI provided a list of candidate tools and brief descriptions.
 - Students verified information using official documentation and selected relevant tools for further research.

Google Gemini

- Website: <https://gemini.google.com>
- Accessed: June 15, 2026
- Prompt:

"Nhận xét các kết quả đánh giá, tìm hiểu của các tool trong file cho việc Web Automation Testing."

- Purpose:
 - Review and compare researched tools.
 - Support evaluation of tool suitability for the seminar proposal.
- Contribution:
 - AI generated comparative comments and recommendations.
 - Students reviewed, verified and refined the proposal manually.

ChatGPT

- Website: <https://chatgpt.com>
- Accessed: June 2026
- Purpose:
 - Support seminar proposal structure.
 - Summarize Web Automation Testing concepts.
 - Explain automation testing theory, maintainability, flakiness and mocking concepts.

- Review proposal content based on lecturer feedback.
- Contribution:
 - AI provided suggestions and explanations.
 - Students validated information with course materials and official tool documentation before using it in the report.

Declaration

All AI-generated content was reviewed, verified and edited by group members before inclusion in any deliverable. AI tools were used as supporting assistants only and did not replace students' own research, analysis or decision-making.

Tasks Planned for Next Week

- Set up EShop SUT environment locally.
- Verify frontend and backend services can run successfully.
- Build the initial automation project structure.
- Create the first Playwright automated test cases.
- Conduct initial experiments with Playwright on EShop.
- Prepare evidence and progress updates for the next weekly report.
