

Weekly Report - Week 04

General Information

- Group ID: 03
- Project Name: T2 Web Automation Testing
- Date Range: 06/07/2026 - 11/07/2026

Task Complete This Week

23127209 – Nguyen Anh Khoa

- Research AI-assisted test generation workflows.
- Explore AI-generated Playwright agent.
- Compare manually written tests and AI-generated tests.
- Document advantages and limitations of AI-assisted automation testing.

Evidence: [Agent Automation Testing](#)

23127402 – Truong Hoang Lam

- Installed and configured the Playwright testing environment.
- Explored the Playwright Test Runner, project structure, and configuration files.
- Practiced browser automation, locator strategies, and assertion techniques.
- Developed a proof-of-concept (PoC) automation test for the EShop application.

Evidence: <https://github.com/namdin05/ST-Group/tree/23127402/Seminar/23127402>

23127430 – Dinh Hoang Nam

- Study Mock, Stub, Fake and Test Double concepts in automation testing.
- Research API mocking capabilities in Playwright.
- Design initial test scenarios for:
 - Login & Account Lockout
 - Add To Cart
 - Checkout

Evidence:

- [Test Scenario](#)
- [API Mocking](#)

Tasks Planned for Next Week

23127402 – Truong Hoang Lam

- Refactor Playwright tests using the Page Object Model (POM).
- Improve locator strategies and test assertions based on initial experiments.
- Capture execution screenshots and trace reports for the User Guide.

- Contribute to writing the Playwright setup and execution sections of the User Guide.

23127209 – Nguyen Anh Khoa

- Refine AI-generated Playwright test scripts based on manual review.
- Prepare comparison examples between manual and AI-assisted automation tests.
- Create demonstration scenarios for AI-assisted test generation.
- Document best practices and limitations of using AI in Web Automation Testing.

23127430 – Dinh Hoang Nam

- Implement a Playwright API mocking example for the seminar demonstration.
- Complete automation scenarios for Login, Add to Cart and Checkout.
- Write the Web Automation Testing theory and Mocking sections of the User Guide.
- Prepare the seminar demonstration script and supporting presentation materials.
